

Forensic Neuropsychology

Where brain science
meets legal acumen

BOSTON
NEUROPSYCHOLOGICAL
SERVICES LLC

Objectivity

At BNS, we pride ourselves on objective expert witness testimony, comprehensive case review, and concise interpretation of the data. We work with both plaintiff and defense attorneys to ensure objectivity and integrity.

Attorney Resources

In addition to the neuropsychological evaluations and reviews conducted at Boston Neuropsychological Services, we provide special resources to help attorneys with their cases:

- A variety of brain models, anatomical charts, reference books and journal articles
- Customized neuroanatomical animations of your clinical case
- Referrals to other clinical experts such as Neurologists and Speech/Language Pathologists
- Private consultation

Expert Witness Testimony

Boston Neuropsychological Services (BNS), LLC provides a unique approach to forensic neuropsychology. All cases are reviewed by our team of forensic neuropsychologists, at no additional cost, to ensure a thorough analysis of the data and overall case. The lead clinician in each case presents an expert opinion that has met the highest standards of peer review.

Comprehensive Reviews and Evaluations
